Cabinet Construction

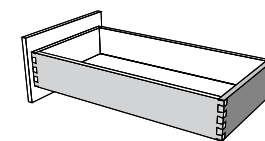

Frameless Cabinetry

Get 40%—60% more drawer storage than framed cabinetry and access stored items more easily thanks to a sleek, frameless construction.

Soft-Close Door Hinges and Drawer Glides

Say goodbye to slammed doors and pinched fingers with smooth, whisper-quiet self-closing mechanisms.

Dovetail Drawers

Have drawers that hold together stronger and longer with interlocking joints.

Furniture Board

Enjoy long-lasting cabinets that stay stable in changing temperatures and humidity.

- ✓ Soft-close doors and drawers
- ✓ Dovetail drawer box
- ✓ Full-access storage

MELVERN
Shown in White

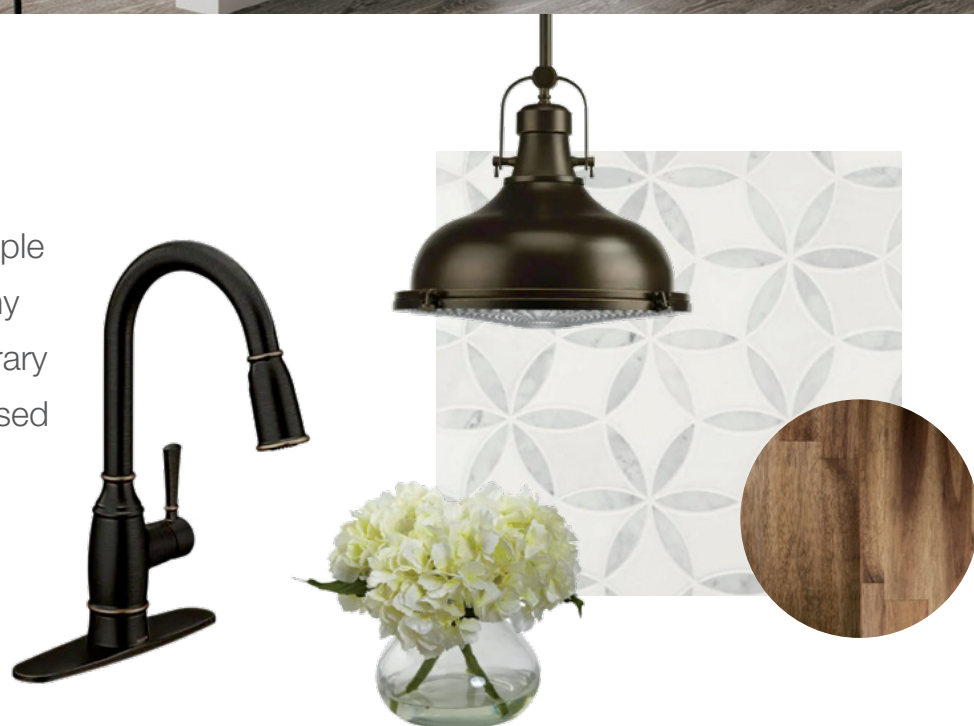

30", 33", and 36" wide drawer bases store bulky pots and pans close at hand. Top drawer is dovetail with soft-close glides. The bottom two hardwood drawers feature full-extension, heavy-duty, soft-close glides.

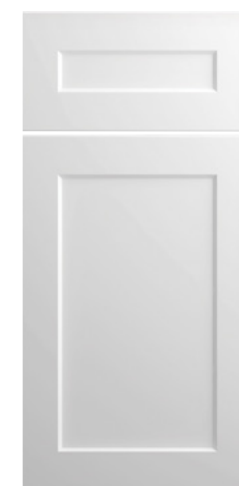

The dual waste bin keeps trash tucked away, keeping the kitchen tidy and floor space open. Recycling is easy with separate bins.

MELVERN

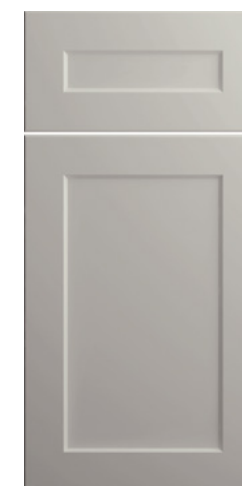

Clean and tasteful, the simple lines of Melvern accompany transitional and contemporary decor with a striking recessed center panel.

White RTF

Heron Gray RTF

Storm Gray RTF

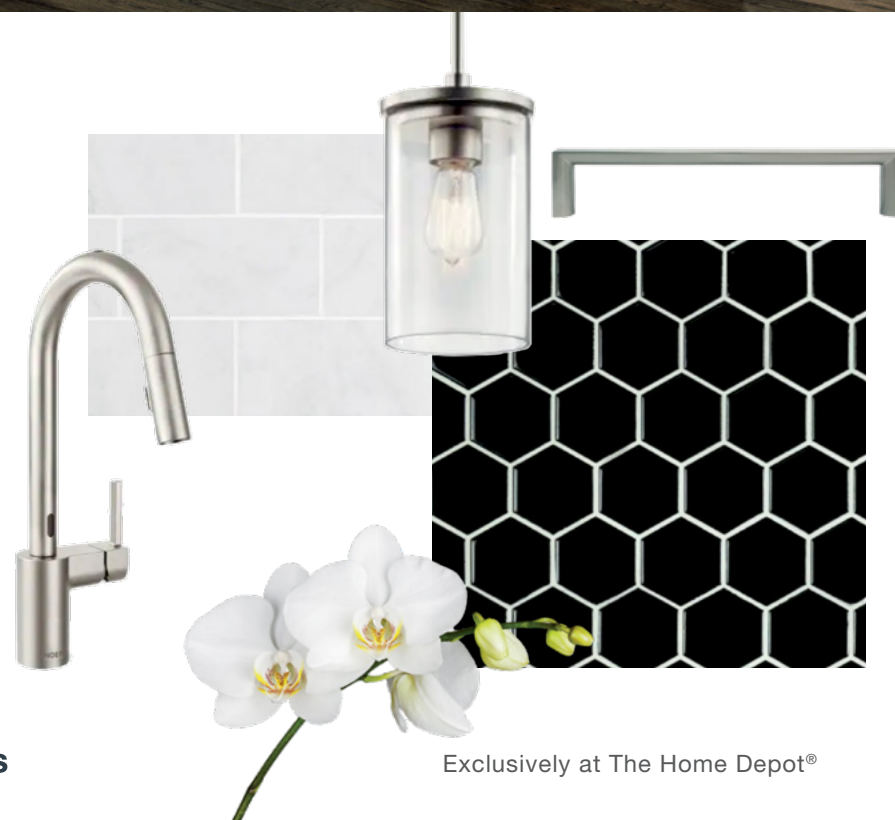

Lift-up wall cabinets are available in aluminum trim doors with frosted glass or matching doors. Hinges glide smoothly upward when in use and close gently.

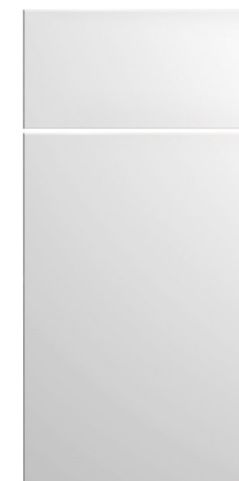

Make a statement with frosted glass, or maintain a uniform look with matching doors.

EDGELEY

Sleek and urban, Edgeley features an unmistakably modern slab door with the look of exotic wood grain and clean lines. Perfect for contemporary living.

Driftwood RTF

Thunder RTF

ELGIN
Shown in Heron Gray

Add rollouts (internal drawers) to any base or pantry cabinet. Great for adding storage for spices or anything the busy cook in your house would want in easy reach.

Create a cohesive built-in look for your microwave by adding a bridge cabinet above.

ELGIN

Naturally beautiful, Elgin features a solid raised panel door and drawer front with finely crafted details, perfect for traditional styling.

SOLESTE
Shown in Spice

The beauty and classic style of glass. Display treasured items with style behind a clear glass door.

SOLESTE

Both classic and contemporary, Soleste style features an uncluttered aesthetic that brings serenity to your kitchen.

Spice

Framed open-wall cabinets provide open storage for showcasing your favorite decorative pieces, while keeping items within easy reach. Use them for walls or combine creatively with base cabinets in islands and peninsulas.

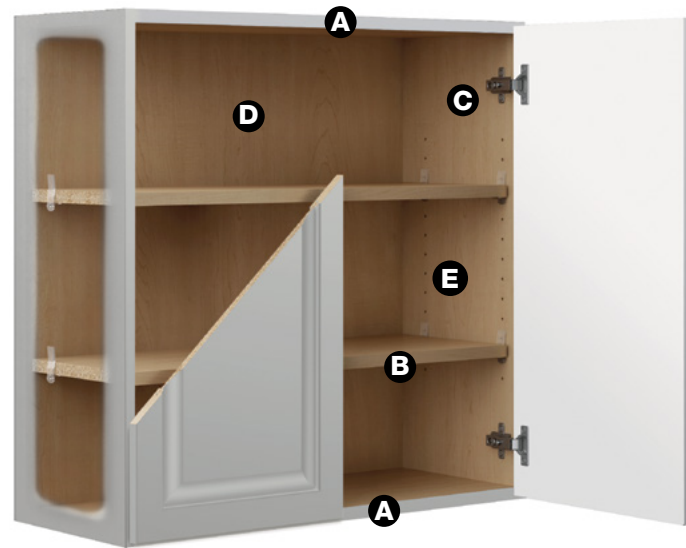

BEYOND THE KITCHEN

Designer Series cabinetry makes a beautiful statement throughout your home. Create an entertainment center or new bath, and so much more. Add storage to a laundry room, garage, foyer, or office.

DISCLAIMERS

Wood

Wood species in all finishes will exhibit color changes when exposed to different types of light and environments over time. Such color changes are expected and are not defects. Graining differences, mineral streaks, and color variations are expected in wood cabinetry. Hampton Bay Designer Series door styles often exhibit these characteristics, and such graining differences, mineral streaks, or color variations are not defects.

Preventing Heat and/or Humidity Damage

Various cooking ovens, ranges, cooktops, cooking pots, toasters, and other small appliances produce high heat and/or humidity. It is very important to make sure these products are positioned so rising heat is not trapped or confined; otherwise, you risk damage to cabinets or moldings that is not covered under the warranty. In addition, if higher temperature settings are used for extended periods of time, the radiant heat may be excessive, and the doors and drawer fronts should be shielded or removed. This is particularly important on Thermofoil doors, which cannot be exposed to extended temperatures beyond 160°F without risking permanent damage. We recommend the use of a heat deflector for Thermofoil kitchen installations.

Finish Names

Thunder RTF, Driftwood RTF, Glacier RTF, White RTF, Heron Gray RTF, Storm Gray RTF, and Spice are finish names. These names do not represent wood species; they are simply names intended to identify a particular finish.
